Mr. William F. Caton
Acting Secretary
Federal Communications Commission
1919 M Street, N.W., Room 222
Washington, D.C. 20554

Re: WT Docket No. 96-86 (Public Safety
Requirements) and WT Docket No. 97-82/
(Amendment of Part 1 Competitive Bidding Rules)

Dear Mr. Caton:

Compu-DAWN, Inc. hereby notifies the Commission that on March 24, Louis Libin of Compu-DAWN and counsel Ellen Goodman and Erin Egan met with David Siddall of Commissioner Ness' office and David Wye and others of the Wireless Telecommunications Bureau to discuss issues related to the above-captioned dockets. In particular, Compu-DAWN illustrated the public safety support services it provides and outlined the proposals it will make that the FCC adopt a bidding credit for private entities that do or seek to devote their businesses to the provision of public safety or public safety support services. The attached was distributed.

Please direct any questions concerning this matter to the undersigned.

Sincerely,

Ellen P. Goodman

Attorney for
Compu-DAWN, Inc.

cc. David Siddall, Esq.
Mr. David Wye

ALECS 2000™ Modules

compu  DAWN

ALECS 2000™

Advanced Law Enforcement Computer Solutions

- State-of-the-art software solutions designed for public safety
- 14+ modules
- All modules interface with existing systems.
- Modules can be combined to form fully integrated solutions.

compu  DAWN

ARMS

Advanced Records Management System

- Organizes, processes and retrieves data in *real-time*.
- Provides information to field personnel so they can make informed decisions and quick responses.
- Information includes: person's history, location history, warrants, hazards, firearm permits, orders of protection, alarm/emergency contacts, property registration, etc.

E-911 Interface

- Imports caller's name, number and location data from the telephone company.
- Retrieves any historical information on the caller or the location.
- Increased accuracy, decreased key strokes, decreased response time and increased safety.

VCAD

Visual Computer Aided Dispatch

- Identifies available units.
- Assists the dispatcher in assigning resources promptly.
- Obtains information from database.
- Provides the nearest cross streets, hydrant locations, etc.
- Date/time/event numbers automatically stamped.
- Checks hazard, warrant, firearm permit, alarm, order of protection and history from databases.
- Gives call back number.
- Touch screen, full color and user friendly.

Mapping Interface

- VCAD automatically displays location of event and available units.
- Provides quicker and more effective resource deployment.
- The dispatcher can ***zoom*** the map to give greater details to responding units.
- Locations of various past events can be displayed providing crime analysis.

AVL

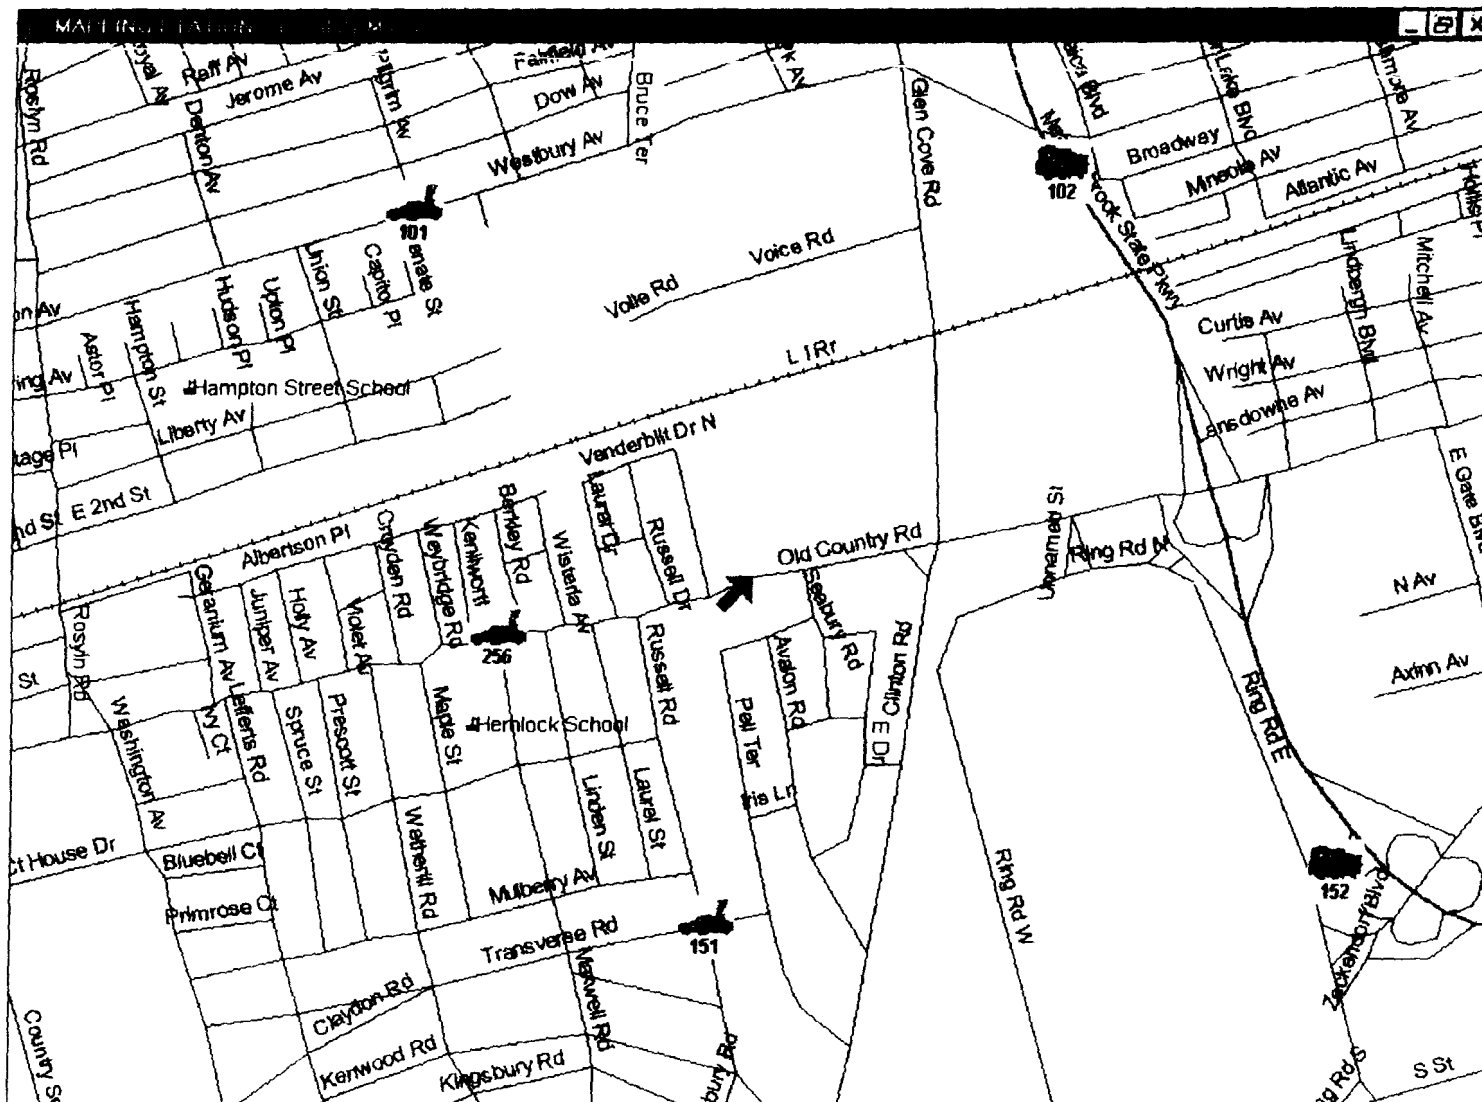

Automatic Vehicle Location

- Automatically transmits location of vehicles and event to headquarters where they are tracked visually.
- Gives management and dispatchers easy visual representation.
- Provides real-time response of vehicles to an event.
- Increases officer safety and productivity.
- Provides management with enhanced supervisory capabilities.

AVL - Mapping

Automatic Vehicle Location

AMO

ALECS Mobile On-line

A Virtual Office in the Car

- All files can be accessed and updated mobile.
- Messages and replies are transmitted as data; provides security and privacy.
- Text to speech and voice recognition commands.
- Photo imaging/mug shot of persons can be transmitted individually or broadcast for rapid distribution.
- DMV, state accident and incident reports can be completed and filed from the field.
- Increased officer safety and time in the field.

compu  DAWN

Local, State & NCIC Interface

- Interface to crime information databases from all workstations.
- Users are provided menu options for various inquiries:
driver's information, criminal history, etc.
- Delivers responses to an AMO laptop, no need for dispatcher intervention, thus providing faster response to in-field requests.
- Frees dispatcher's time, while simultaneously giving Police Officer important information.
- Increases traffic summonses and arrests.

PISTOL

Photo **I**maging **S**oftware **T**echnology **O**n-**L**ine

- Enables capturing images of prisoners, property, accident and crime scenes, etc. and links them instantly to the ALECS database.
- Utilizing AMO, photos can be transmitted to the laptop computer for identification, searches, etc.
- Photos relating to a specific event can be linked, retrieved, or printed on demand, with field notes attached.
- Searches for match and physical characteristics.
- Automatic photo arrays.
- Decreases crime/impersonation and false I.D. utilization.
